- The selected brief will get a chance to present themselves at the time of conference in the section called as the **"Achievers of Maharashtra Association of Physicians"**
- The presentation must be a 5 to 7-minute pitch presentation comprising of 5 to 7 slides only
- The Organising Committee will communicate personally to the achievers about the logistics

OPEN FORUM AND OPEN MIC

While hosting MAPCON 2019, we welcome a few suggestions and tips from you all

- What are the expectations of a practicing physician from such kind of events?
- Can you suggest some different topics, a faculty or out of the box situation which can make a change in the patient management at your level?
- There may be many senior stalwarts physicians, retired professors, teachers of ours who are still active and remain academicians at heart, they may like to share clinical pearls, things to do & not to do, soft skills & practical words of wisdom which we will try to accommodate into the scientific programmes.

We are sure that with your valuable inputs, our friends from nearby states too will plan to attend the conference for a cherishing experience with a different quality of academics.

This Conference is aimed mainly for the primary care physicians working in the resource limited areas. So friends, get up and ask or pen any questions to the learned faculties, discuss difficult case situations, the microphone is your and your voice will be surely heard.
